ABOUT ME

I am Sheldon Ashish Stephen, currently studying Computer Science at Vellore Institute of Technology. My passion for technology is matched only by my diverse interests in drawing, singing, and gardening. Proficiency in programming languages like C, C++, Java and Python complements my unique mindset, characterized by an open-minded and optimistic approach to learning.

My ambition is to pursue a Master's in Cybersecurity, driven by an innate curiosity about computers since childhood. I aspire to become a pioneering computer scientist, aiming to create innovative software that bridges various fields such as medicine, physics, archaeology, and economics. Additionally, I aim to develop groundbreaking hardware that will have a transformative impact on our lives.

I am deeply committed and determined to achieve these goals, taking each step with focused determination.

COMPUTER LANGUAGES

PYTHON	HTML
C	CSS
C++	
JAVA SCRIPT
